SHOWCASE YOUR ORGANIZATION OR CLUB!

The family and friends of Heather Carpenter are organizing an opportunity for our community to honor teens and young adults who have lost their lives. The event will host speakers, a three-mile walk highlighting memorials and information from local organizations.

We are inviting organizations and clubs, located in Northern
California
that promote positive life choices for local youth,
to attend this event to publicize their mission.

At this event, your organization or club has the opportunity to
further educate the community about the mission and purpose, and
recruit new volunteers or donors.

This event will draw family, friends and community members concerned about the loss of young lives from our community. While we meet to memorialize, it is important to use this event to renew our commitment towards making a difference.

Organizations or clubs attending this event are encourage to:

- Participate in this event and be on hand to answer questions. Wearing your organization or club uniform or t-shirt is recommended.
- Present a short address, to be given to event attendees before the walk, about your organization or club and how the community can get involved.

- Distribute material describing your mission or purpose, and how the community can be of support.
